Introduction

The results presented in this report are based on the Courage in Business survey.

The survey was carried out between April 25 and May 11, 2016. The survey relied on the Modus Business Panel, which is a fully random sample, representative of all Canadian enterprises.

In total, the survey sampled 1,198 eligible respondents. The margin of error for this sample is +/- 2.8 percentage points, 19 times out of 20.

These data have been weighted by organizational size, industry sector and region to ensure representativeness of Canadian enterprises.

As a top-line report, the survey findings are ordered in the sequence of questions as they were presented in the survey.
